

# Peer Reviewed Science

## Peer Reviewed Medical & Scientific Articles

These articles carry the most scientific weight as they are reviewed by a committee of doctors and scientists before they are accepted for publication.

*The following links are provided for you to other sites which have lists of scientific publications on Lyme disease where you can search for particular aspects of the disease. Sorry, but LDA does not have staff to help you search. You are leaving the LDA website by clicking on these links.*

### PubMed/Medline Search

PubMed was developed by the [National Center for Biotechnology Information \(NCBI\)](#) at the [National Library of Medicine \(NLM\)](#), located at the [National Institutes of Health \(NIH\)](#). The PubMed database was developed in conjunction with publishers of biomedical literature as a search tool for accessing literature citations and linking to full-text journal articles at web sites of participating publishers. For more information please refer to the [PubMed overview](#)

### The Lyme Disease Network Medical/Scientific Literature Database

This database was developed by the Lyme Disease Network of New Jersey (Lymentet), an LDA affiliate.
