

# Covid-19 and Lyme Disease

Lyme Disease Association, Inc. (LDA) has assembled articles on COVID-19 and Lyme disease to help guide you during this pandemic.

*Disclaimer: The Lyme Disease Association Inc. (LDA) provides this information as a public service. LDA does not necessarily endorse any of the studies or other articles in this section. Viewers need to consult with physicians or other professionals on any healthcare issues. Please do not write and ask if LDA has information on whether chronic Lyme patients should take the COVID-19 vaccine. We do not have data on that and do not know of anyone who does have it. Thanks.*
