Accreditation Statement 2019 Columbia/LDA CME Lyme Conference

AMA Credit Designation Statement:

The Columbia University Vagelos College of Physicians and Surgeons designates this live activity for a maximum of 14.25 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Accreditation:

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Columbia University Vagelos College of Physicians and Surgeons and the Lyme Disease Association. The Columbia University Vagelos College of Physicians and Surgeons is accredited by the ACCME to provide continuing medical education for physicians.

Disclosure:

The Columbia University Vagelos College of Physicians and

Surgeons must ensure balance, independence, objectivity, and scientific rigor in its educational activities. All faculty participating in this activity are required to disclose to the audience any significant financial interest and/or other relationship with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in his/her presentation and/or the commercial contributor(s) of this activity. When unlabeled uses are discussed, these will also be indicated.

Target Audience:

The target population is physicians from all specialties, nurses, psychologists, scientists, public health workers. It is also open to the public, and Lyme disease educators generally attend. The geographic area being reached is nationwide. No special background is required for effective participation, although those whose practices contain a high proportion of Lyme disease patients and those whose research concentrates on *Borrelia burgdorferi* will receive the most benefit.

Learning Objectives:

- Clinicians should have better ability to use current diagnostic tests and to understand the difference between direct & indirect testing
- Clinicians should be able to describe the manifestations and tests for Babesia duncani, spotted fevers, Powassan virus, and anaplasma
- Clinicians should be able to explain to patients that changes in the microbiome may impact brain function
- Clinicians should be able to describe some of the key immune biomarker findings in Lyme disease
- Clinicians should be able to describe the possible ocular, neurologic, and cardiac effects of Lyme disease

THANK YOU!

This activity is supported by independent educational grants
