

LDA Presents to Environmental Commission

On February 3, 2010, Lyme Disease Association President Pat Smith presented a Powerpoint titled *Lyme Disease Update: The Spread, What Is Being Done About It* to the Monroe (NJ) Environmental Commission. The talk was open to the public. She highlighted the problems NJ faces as a state ranking 4th in the nation in reported cases, discussed the spread of the disease, and any actions taken by government to halt the spread.
