LDA LymeLiteracy

Pat Smith, President, Lyme Disease Association, Inc.

## ***LDA President's Blog – LDA & Duke U. Law Students Join Forces to Educate on Lyme***

When the Lyme Disease Association Inc. (LDA) was contacted by a student at Duke Law who wanted to organize a group of students in a Lyme disease pro bono project, I was very excited about the possibilities...Lyme is not just a disease but a political nightmare... this was an opportunity to have some of the brightest and most motivated of our youth tackle this epidemic...The findings from this group of law students can be disseminated and used to empower patients, families, physicians, politicians, and researchers to unravel the secrets surrounding Lyme and provide solutions for Lyme and other tick-borne diseases across the globe.
