

Promote Lyme Disease Understanding and Awareness

At US Biologic, we're constantly reminded of the links between ecology and disease. As such, we're honored to partner with the Global Lyme Alliance and Lyme Disease Association to create and freely share new education materials.

Anti-Tick Vaccines Disrupt Tick Feeding and Disease Transmission

US Biologic's CSO, Dr. Jolieke G. van Oosterwijk, published an invited review in a special issue of *Parasite Immunology* on anti-tick vaccines that result in disruption of tick feeding and disease transmission, as well as reducing tick abundance.
